

# 208

## SESSION ALE

Ale 208 is brewed to be Idaho's session ale. This crisp drinkable ale has a light malt body and subtle yet citrusy hop character. It's brewed with 100% Idaho grown grain, hops and pure Idaho spring water. The package imagery is inspired by and pays tribute to Idaho's rich agricultural heritage and its diverse and beautiful vistas. The name comes directly from the 208 area code that encompasses all of Idaho. As broad and far reaching as this state is, we are all still Idaho.
